MY PROFILE

Top rated Upwork Freelance Web Developer looking for a more permanent home with a like minded company. I am looking to become a valuable member of your team with my experience as both a Front End Developer and Web Designer.

JOB EXPERIENCE

FREELANCE WEB DEVELOPER   **May 2016 - Present**

As a freelance web designer and developer I have gained a lot of experience and am able to produce solutions based on a wide range of business requirements. With the variety of clientele I've been able to work with I've challenged myself to grow as both a designer and developer. Each project is unique and has required unique solutions.

Take general design and development requirements and translate them into a unique, engaging, and responsive design with intuitive User Experience and Interface in mind. Promptly completed any revisions needed to ensure the client

CUSTOMER SERVICE - Netflix   **Nov 2015 - Aug 2016**

Responsible for providing superior customer and technical support to Streaming Customers across the world. Take multiple complicated chats and phone calls to ensure the customer knows they are the sole focus of my attention. Chats are either technical or feedback related.

WEB DESIGN LEAD - Direct Business Lending   **Mar 2014 - Sept 2015**

After working with DBL as a customer service representative it became clear the company needed an internal web development team. I successfully pitched the idea to the CEO and created a new department that created thousands of websites. Worked closely with management to create new processes and systems.

EDUCATION

Professional Education University of Utah   **Feb 2020**

Expected Graducation Feb 2020 for Full Stack Development Certification. Bootcamp course that is focused on front and backend development using the languges HTML5, CSS, JavaScript, jQuery, Node.js, and React.js.
